Plateau Telecommunications to Purchase Comcast Cable TV Assets in Tucumcari

(Clovis, N.M.) ... Plateau Telecommunications, Incorporated announced today that it has signed an agreement to purchase Comcast cable TV assets in the Tucumcari, New Mexico market.

The transaction is expected to close by the end of September and will enable Plateau to expand its fiber services more quickly in Tucumcari. Plateau plans to upgrade the legacy coaxial cable TV system to a Fiber to the Premises (FTTP) system which will make Plateau Fiber services, including gigabit internet, video and voice, available to all locations the Comcast system passed.

David Robinson serves as CEO of Plateau, headquartered in Clovis, and stated, "Plateau recognizes the importance of making fiber products and high speed broadband service available to New Mexico communities, and we are excited to be increasing our presence in Tucumcari."

Plateau and Comcast are committed to ensuring a smooth transition for their mutual customers. Plateau plans to keep cable TV service working for current Comcast customers during the transition. Plateau will reach out shortly after close to welcome their new customers.

Formed in 1949 as Eastern New Mexico Rural Telephone Cooperative, Plateau provides advanced communications services including voice, internet and video to residents in all or parts of 18 eastern New Mexico counties and four in the Texas Panhandle. For additional information, visit www.plateautel.com.

Comcast Corporation (Nasdaq: CMCSA) is a global media and technology company with two primary businesses, Comcast Cable and NBCUniversal. Comcast Cable is one of the nation's largest video, high-speed internet, and phone providers to residential customers under the XFINITY brand, and also provides these services to businesses. It also provides wireless and security and automation services to residential customers under the XFINITY brand. NBCUniversal operates news, entertainment and sports cable networks, the NBC and Telemundo broadcast networks, television production operations, television station groups, Universal Pictures and Universal Parks and Resorts.
